

Understanding AUTISM

Early Signs, Early Help, Bright Futures

By Prof (Dr) Priyadarshree Patra

Meet Aarav

Aarav loves spinning wheels and watching them move again and again.

Aarav prefers playing alone.

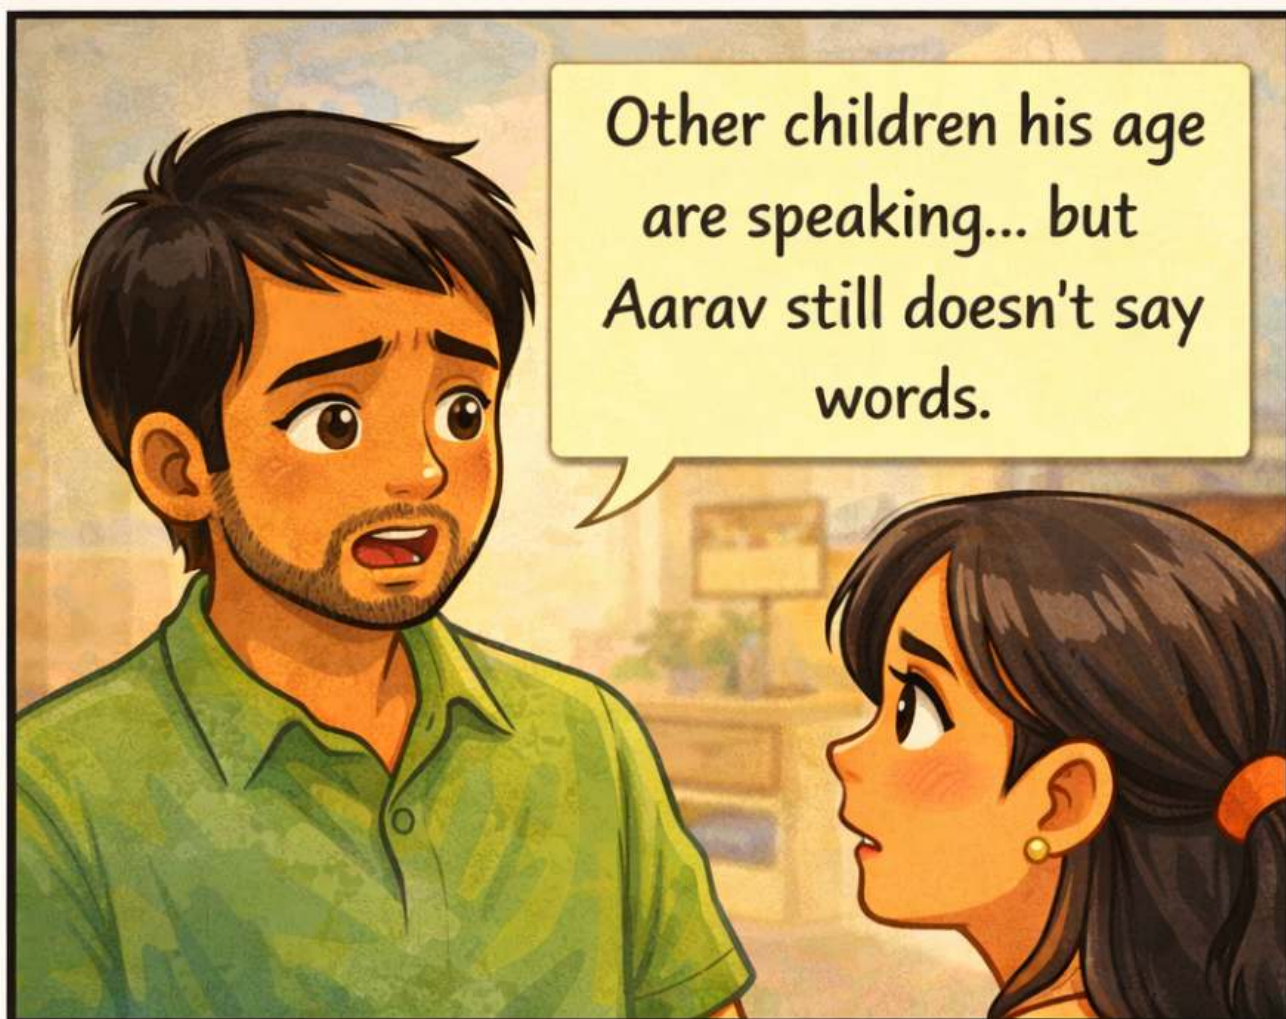

Parents became Concerned

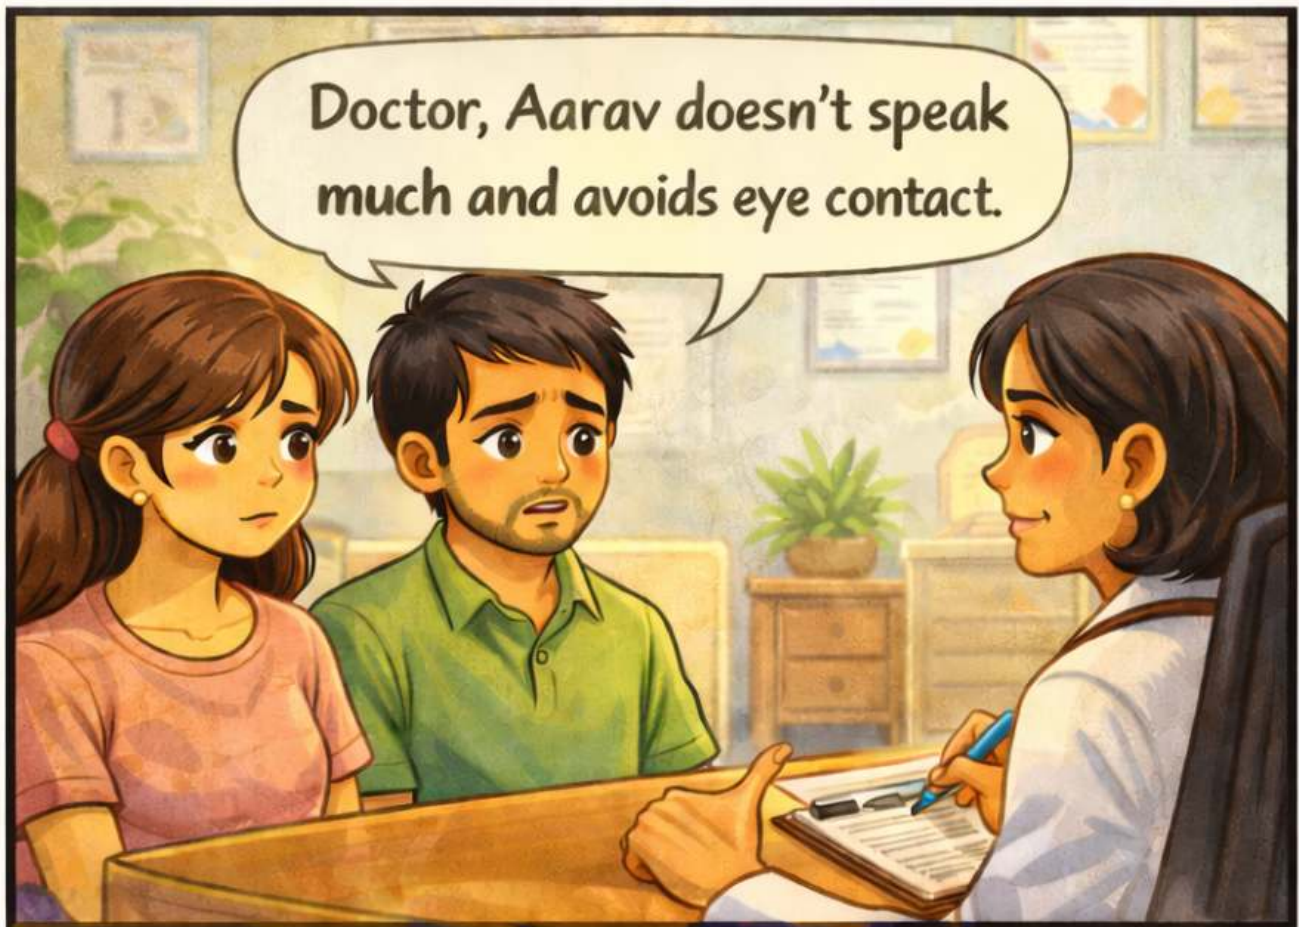

Some children with autism show repetitive movements.

They may be very sensitive to normal sounds.

Visiting the Pediatrician

Aarav may have signs of Autism.
We should evaluate him further.

A multidisciplinary team helps children with autism.

Multidisciplinary Team

Psychiatrist

Clinical Psychologist

Speech Therapist

Occupational Therapist

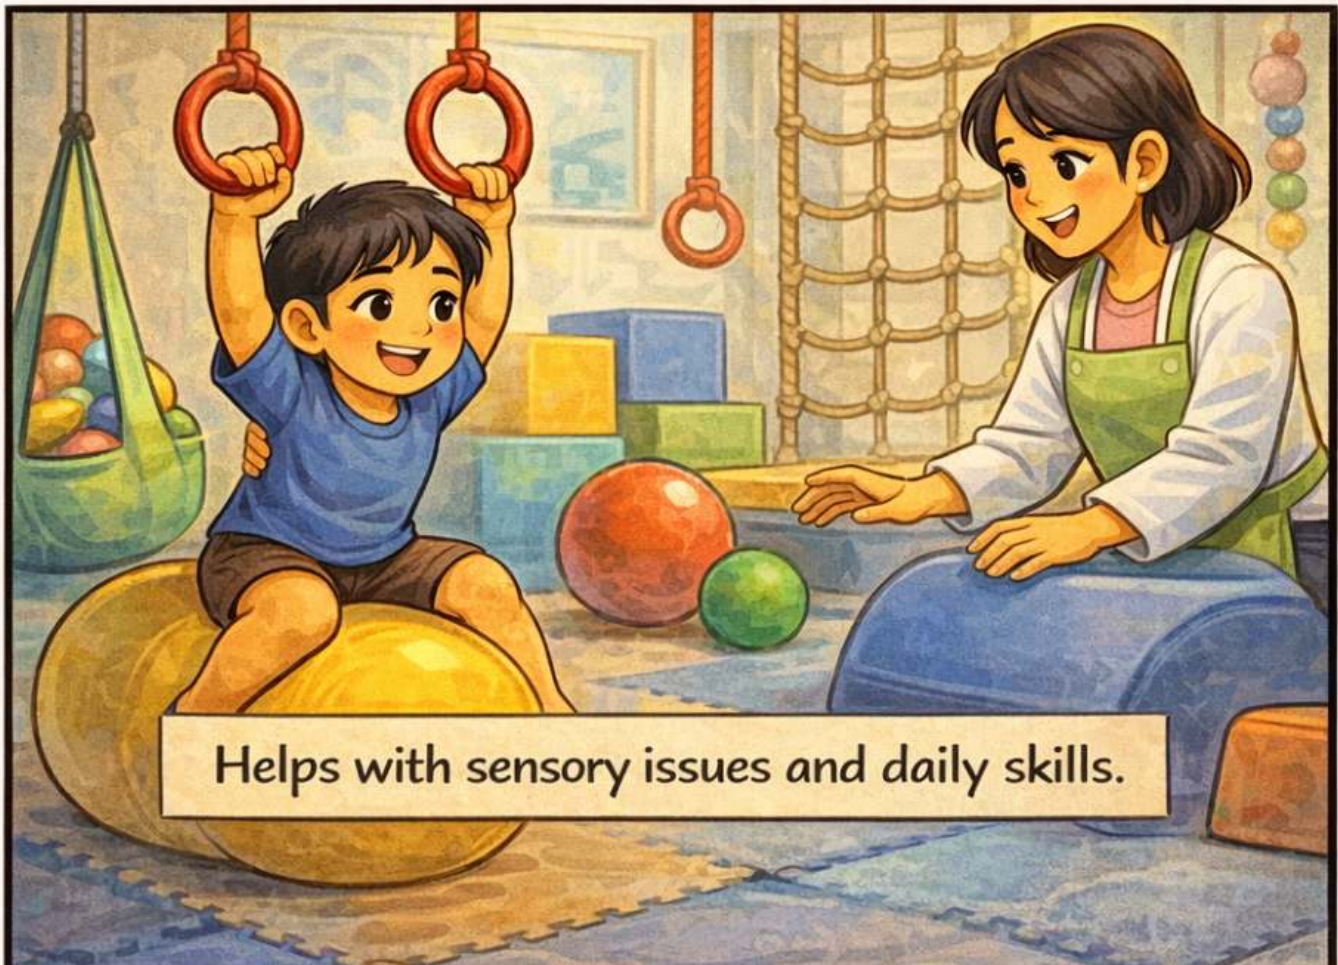

A multidisciplinary team helps children with autism.

Speech Therapist

Occupational Therapist

Educational Support in India

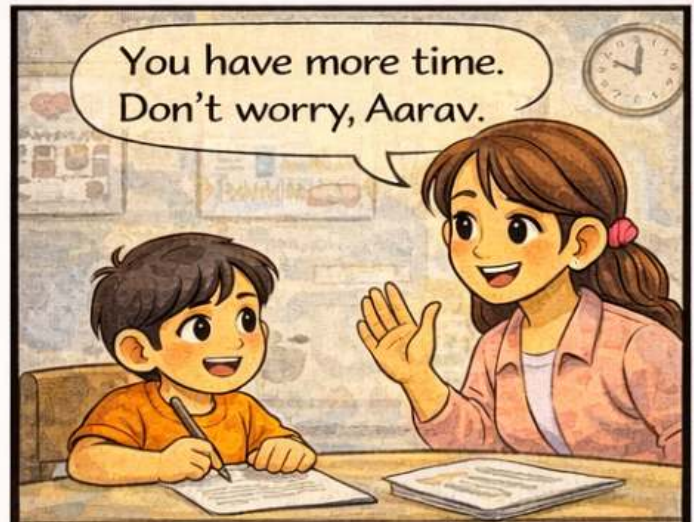

Facilities available:

CBSE & Other Boards

- Inclusive education
- Extra time during exams
- Use of scribes
- Exemption from second language
- Individualized Education Plans

- Inclusive education

- Use of scribes

Early identification leads to better outcomes.

Autism is not a limitation –
it is a different way of experiencing the world.

With understanding, therapy,
and support, children with autism
can lead meaningful
and fulfilling lives.
